Art Unit: 2662

Amendment, filed 09/22/05 has been entered. Claims 19-37 remain pending.

Election/Restrictions

1. Newly submitted claims 19-37 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Newly submitted claims 19-37 comprise limitations of “translating the protocol API operation into a miniport API operation” directing to an invention independent from the invention characterized by limitations of claims 1-18 “deriving topology of the first and the second networks from network packets” and “delivering the received network packets based on a MAC address”.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19-37 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2662

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
